Erasmus Policy Statement (Overall Strategy)

D. Erasmus Policy Statement (Overall Strategy)

The Institution agrees to publish this overall strategy on its website within one month after the signature of the Erasmus Charter for Higher Education by the European Commission.

Please describe your institution's international (EU and non-EU) strategy. In your description please explain a) how you choose your partners, b) in which geographical area(s) and c) the most important objectives and target groups of your mobility activities (with regard to staff and students in first, second and third cycles, including study and training, and short cycles). If applicable, also explain how your institution participates in the development of double/multiple/joint degrees. (max. 5000 characters)

El centro de Educación Secundaria La Granja considera que el desarrollo profesional de los alumnos que se encuentran estudiando en nuestro centro pasa por un adecuado dominio de las lenguas extranjeras, principalmente las europeas y entre ellas el inglés. Por tanto, la participación en programas europeos de movilidad es una excelente vía para poder mejorar sus capacidades lingüísticas, al mismo tiempo que conocen el mundo laboral y ejercen su profesión en otros países de su entorno.

La globalización, así como la crisis económica está obligando a los nuevos profesionales a salir de sus países de origen y desarrollar sus capacidades en otros.

Una buena formación garantiza mejores trabajos, por lo que el intercambio de experiencias entre ciudadanos europeos es esencial.

Al centro le interesaría colaborar con países miembros de la Unión Europea. Deseamos poder ofrecerles a nuestros alumnos prácticas en empresas relacionadas con los siguientes sectores:

- Agrario
- Sanitario
- Imagen y sonido
- Edificación y Obra Civil

Queremos contar con socios que nos faciliten el realizar intercambios con empresas de dichos sectores ya que son los más relacionados con los Ciclos Formativos de Grado Superior que ofrecemos.

Este centro estaría muy orgulloso de poder participar en proyectos de movilidad con sus alumnos de Formación Profesional.

Translation language [EN]

At IES La Granja we think that in order for our students to develop their professional career, it is necessary for them to acquire and improve their language skills, and specially their English skills. Taking part in European projects is the perfect way to achieve that and enter the job market and practice their profession in a neighboring country at the same time.

Globalisation and the financial crisis are forcing young professionals to leave their countries and acquire new skills in other countries. A good education guarantees better jobs, so the exchange of experiences among European citizens is essential.

The school wishes to work with partners from the EU and offer our students traineeships within companies working in the following fields:

- Agriculture
- Healthcare
- Image and sound
- Construction and Civil Engineering

We are willing to collaborate with partners that can offer us traineeships within those sectors because they are closely related to our VET courses.

The school will be proud to participate in mobility project with our VET students.

Please describe your institution's strategy for the organisation and implementation of international (EU and non-EU) cooperation projects within the framework of the Erasmus+ Programme.

If not applicable, please explain (max. 2000 characters)

Original language [ES]

Nuestro Centro cuenta con diversas experiencias en países europeos, gracias a nuestra participación en el programa Comenius y a anteriores Cartas Erasmus. Por todo ello son varios los contactos que fomentamos y con los que mantenemos la comunicación, lo que nos permitirá intercambiar profesorado y alumnado.

Translation language [EN]

The school has an extensive experience within different European countries thanks to our participation in the Comenius programme and previous Erasmus Charters. That is the reason we maintain contact with former partners, and that will make it easier to carry out students and staff exchange programmes.

Please explain the expected impact of your participation in the Erasmus+ Programme on the modernisation of your institution. Please refer to each of the 5 priorities of the Modernisation Agenda *and explain which are the policy objectives you intend to pursue. (max. 3000 characters)

Translation language [EN]

Obtaining the ECHE will contribute to the school's modernisation and improvement, and it will also increase our students' chances to enter the job market. In relation with the Modernisation Agenda, our participation in the Erasmus+ Programme will help to:

- Improve our attainment levels and in quality and relevance of the education we offer. Moreover, it will benefit our students both at a personal and at a professional level, as they will have the chance to obtain first-hand experience in the job market. They will also acquire and improve their language skills.
- Promote and improve the cooperation with other schools and foreign companies.
- Strengthen the "knowledge triangle", as we will establish links between the school and foreign companies.
- Improve the funding efficiency, as it can only be achieved through further participation and a more in-depth experience in mobility programmes.

Original language [ES]

La obtención de la Carta Erasmus contribuirá enormemente a la modernización y mejora del centro, así como de las posibilidades de empleo de los estudiantes. Concretamente, y en relación a las prioridades de la Agenda de Modernización, nuestra participación en el programa Erasmus+ contribuirá a:

- La mejora de los resultados y del rendimiento de los alumnos y del personal: una experiencia de movilidad conllevará enormes beneficios para los estudiantes a nivel personal y profesional. A nivel profesional supondrá una toma de contacto con el mercado de trabajo. También supondrá la adquisición o mejora de habilidades lingüísticas.
- El impulso y mejora de la cooperación con centros y empresas de otros países.
- El fortalecimiento del "triángulo del conocimiento": puesto que se establecerán vínculos de cooperación entre el centro y empresas extranjeras.
- La mejora de la eficiencia en la financiación, la cual sólo puede conseguirse con una mayor participación del centro y, consecuentemente, una mayor experiencia en programas de movilidad.
